Submission Guide

Closing date:
31st Oct 2022

Atap Design Awards 2022

You are suggested to go through the guidelines and requirements in detail. This guide serves the purpose of assisting you with the submission preparation and to maximise your score in winning the award. Failure to comply with these rules may result in disqualification of your entry. For help or further assistance with your registration or submission, please contact the awards team.

Click here for your submission. Please note that the submission closing date is on **31st Oct 2022.**

Project Images Guide

○ **Your project image quality is very important to represent your work. The below requirements should be fulfilled.**

- The project album must be uploaded to Atap.co prior to filling in the submission form.
- Supported image file types are jpeg, png, gif, tiff and bmp. Each image must be under 25 MB in size. High resolution images are recommended.
- Images should not contain logos, watermarks, or texts of any kind. Collages are not permitted.

Judging Criteria

○ **A detailed written material/ description of the project is required for each project submission. Your project will be judged based on the judging criteria below. The judges will give scores with the following prompts using a scale of 0-10 (0 Strongly Disagree - 10 Strongly Agree). Use the instructions to serve as your guide to score maximum points in each submission.**

○ **Design Vision & Concept (25%)**

The overall design should be judged based on well-planned and thoughtful use of design curated to achieve a successful outcome design statement.

- The design concept is clearly presented and visualised.
- The design creates a remarkable first impression that can serve as an inspiration to the community.
- The design will leave a positive and long-lasting impact by elevating the wellbeing of the occupants.

○ **Aesthetic Qualities (25%)**

This category should be judged by the overall visual appeal and aesthetics.

- The project is well-executed and presents the aesthetic concepts successfully.
- The design has creatively utilised colours, appropriate materials and design outputs.
- The property is enhanced by the interior upgrades using a good balance of design strategies.

DESIGN AWARDS 2022

Submission Guide

Closing date:
31st Oct 2022

Functionality & Practicality (20%)

This category should be judged based on aspects created through design to deliver the most positive impact on the occupants in terms of feasibility and ease of use.

- The design is conceptualised with the needs of all occupants in mind and was clearly followed through in the execution.
- The design takes into consideration real-world functionalities that can transform the versatility of the space for all occupants.
- The project fulfils its practical purpose while also creating a sense of enjoyment and satisfaction.

Innovation & Originality (20%)

This category should be judged by the ingenuity and potential impact of the project, taking into account the ability to deliver innovative and forward-driven designs.

- The design is original in its execution.
- The project has successfully applied new and innovative design ideas.
- The project displays a refreshing and creative approach to the routine role that is designed to stand the test of time.

Environmental Sustainability (10%)

This category should be judged on design features that have a long-term environmental impact and the effective use of sustainable materials.

- The project incorporates sustainable and eco-friendly elements into the design.
- The project successfully paired good design with durability in mind which impacts the environment by producing less waste in the long run.
- These sustainable aspects fit seamlessly into the design and functionality of the overall project.

Thank you for your submission and we wish you the best of luck!
